

## Cold Chain Packaging Solutions Leader

**CELL AND GENE THERAPIES**

### **DEPEND ON US TO DELIVER LIFE-SAVING CELL AND GENE THERAPIES – EVERY TIME**

Innovative cell and gene therapies are derived from a patient's very own cells, so these therapies need to be packaged and preserved every step of the way during transit. Biotech companies face several complex challenges, including protecting the integrity of temperature-sensitive, high-value payloads during transportation. There's no room for error when critically ill patients rely on their own cells to save their life.

The process to collect cells and ensure temperature control demands simplicity. Peli BioThermal's new refrigerated NanoCool™ shipping systems require no conditioning. Just one touch of a button activates the cooling process for refrigerated samples, bringing a room temperature product slowly to 2-8 degrees Celsius. Peli BioThermal's easy-to-use temperature-controlled packaging protects the most delicate one-to-one therapies on their journey from and to a patient.

**PELI**  
**BIOThERMAL™**

# Thermal packaging technologies on a global scale

Peli BioThermal's innovative single-use and reusable thermal packaging products are used by leading global life science industry companies and organizations in pharmaceuticals, biotech, laboratory, diagnostics, and military/government sectors to protect and safely transport their most critical temperature-sensitive tissues, biologics, diagnostic devices and vaccines. We offer the most diverse and trusted selection of cold chain packaging solutions, worldwide manufacturing and service centers staffed by cold chain engineering experts.

## PERFORMANCE YOU CAN DEPEND ON

All Peli BioThermal products are qualified against the highest standards, including the ISTA 7D standard.

### SINGLE USE

### PARCEL

**DeepFreeze™**

**NanoCool™**

**Sherpa Systems™**

**Shuttle™**

### Sustainability

Rent. Reuse. Recycle. We're on a journey to protect our environment and our planet one package at a time.

### Innovation

Our team thrives in the area between problem and solutions to develop cold chain packaging innovation.

### Reliability

Our customers trust us with their most valuable, health-giving and life-saving products.
